TPO Society Auction Autumn 2025

Auction closes on the 15th October 2025

- 1 Another good selection of material for both aspects of the Society with some ephemera never to be repeated I would hazard a guess as most items of this kind of material would have been destroyed once the system finished in 2004. Good luck with your bids and requests for scans. Please note my new phone number on the inside page at the front of the magazine if you require more information on the lots.
